

**HIDE**

prescription drugs  
before you **SHOW**  
your house

**According to the Office of National Drug Control Policy,** "Prescription drug abuse is the Nation's fastest-growing drug problem" and The Centers for Disease Control and Prevention has classified prescription drug abuse as an epidemic.

**AN OPEN HOUSE** can provide an easy opportunity for people to **STEAL PRESCRIPTION MEDICATION** from your home.

### HOW IT HAPPENS

Two people will pose as homebuyers and visit an open house. One person distracts the realtor while the other visits the restroom and raids your medicine cabinet or drawers. The nightstand of the master bedroom is another commonly targeted area.

### IT'S EASY TO PREVENT THEFT

When hosting an open house, you should always remove your medication from the house or secure it in a locked safe.

#### Remember:

“When you put away your valuables, put away any prescription drugs.”

Preventing substance abuse.  
Improving lives.
